Uses

The certificate covers the use of Envirolite Blocks Building System in all areas of South Africa for the erection of single-storey buildings for occupancy classes set out below (**SANS 10400: Table 1 of Regulation A (20) (1)**):

- places of instruction (A3);
- offices and day clinics (G1);
- dormitories, hotels, old age, school residences (H2);
- dwellings attached (H3); and
- dwellings detached (H4).

Should other occupancies be considered, it will require a design from a professional engineer for the specific project.

This certificate and Agrément South Africa's evaluation apply only to Envirolite Concrete Blocks Building System buildings that are designed and erected as described and illustrated in this certificate, and where the terms and conditions of certification are complied with.
